PRODUCT DESCRIPTION

The white DUKE bar stool is characterized by a minimalist form and comfortable use. Its compact dimensions allow for easy hiding of the chair when not in use. The seat of the white DUKE bar chair is made of polypropylene, which is lined with a soft sponge trimmed with ecological leather - also in white color. The base of the 86 cm tall bar stool is made of powder-coated steel. The legs are connected with a metal footrest, thanks to which the use of the chair will be even more comfortable. The DUKE bar chair is an elegant product that will be perfect for trade fairs, conferences, or other events. The TRENDEE rental recommends it also in other colors - we encourage you to familiarize yourself with our offer!
