PRODUCT DESCRIPTION

The DUKE bar stool is characterized by a minimalist form and comfortable use. The compact dimensions of the stool allow you to easily hide the chair when not in use. The seat of the DUKE bar stool in black is made of polypropylene. The seat is lined with a soft sponge trimmed with ecological leather in white. The base of the 86 cm high bar stool is made of black powder-coated steel. The legs are connected by a comfortable metal footrest. The DUKE bar chair is an elegant way to present yourself at fairs, conferences, or other events. We recommend them in the TRENDEE rental shop also in other color versions!
